Let's definitely talk next week. I have a couple of conflicting things tomorrow and didn't have this on the calendar, so not sure I can make it.

Hi Allyn--I think the presentation should mostly be on the Nature Conservancy study on Bristol Bay. If you can attend I think it would be helpful and informative. I cannot (I will be in Colorado). We got most of the presentation on webinar when Trout Unlimited went to HQ. I think they are sending a bunch of their key players, and Dunbar would like to get as many senior managers there as possible. I asked him to send it to you because I think it could be good for background for you too. I will send you a couple more e-mails on the slideshow and the list of attendees.

I think it would be helpful for me next week if we discuss how/when/where to involve you in this process. There is always something going on--not that requires your attention yet, but it seems at any moment it could....

So if you have time to attend this, I think it would be good, but definitely not necessary. Thanks.

Cara
